<b>Ollie Smeenk</b> Kukua [NL]	Empowering Africa with weather data
<b>Sara Wink</b> Agrics [NL]	Quality farm inputs on credit for East-African smallholders
<b>Peter Blezard</b> Azotic [UK]	Let crops fix nitrogen directly from the air
<b>Sjoerd van der Ent</b> Koppert Biological Systems [NL]	Microbes for every agricultural challenge

### **Our Mission**

Koppert Biological Systems contributes to the better health of people and the planet. In partnership with nature, we make agriculture safer, healthier and more productive.

We provide an integrated system of specialist knowledge and natural, safe solutions that improves crop health, resilience and production.

### **Our Vision**

100% Sustainable Agriculture & Horticulture. Globally.

Koppert Biological Systems aims to be the grower's best partner in crop management and the best provider of biological solutions.

### **Our Core Values**

We partner with nature  
We work for growers  
We build global networks  
We keep improving  
We are family

### **Thank you**

For celebrating this special anniversary with us and for your contribution towards our vision:

100% Sustainable Agriculture & Horticulture. Globally.

**KOPPERT BIOLOGICAL SYSTEMS**

50 Years Partners with Nature
